

Screenshot of the openWB web interface showing the Load Management Configuration page.

The top navigation bar includes links for "Status", "Auswertungen", "Einstellungen", "Ladeeinstellungen", "Konfiguration", "System", and "Wiki".

The main content area displays the "Vorhandene Wechselrichtermodule" (Available Inverters Modules) section, which lists "Victron Wechselrichter".

The "Struktur" (Structure) section shows the component arrangement:

- Virtueller Zähler (Virtual Meter)
- Victron Wechselrichter (Victron Inverter)
- Victron Speicher (Victron Energy Storage)
- Interne openWB (Internal openWB)

Buttons at the bottom include "Speichern" (Save) and "Änderungen verwerfen" (Discard changes).

A donation message is displayed: "Open Source made with love! Jede Spende hilft die Weiterentwicklung von openWB voranzutreiben" with a "Spenden" (Donate) button.

The bottom status bar shows the current date and time: "Sie befinden sich hier: Einstellungen / Konfiguration - Lastmanagement" and "DEU DE 13.09.2024 16:56".
